VI. Reading Comprehension: (2%*2+1%*3=7%)

Dear Susan,

I was so honored to come to your graduation ceremony. How long has it been since we last met?

As your aunt, I care a great deal about you. I noticed something on this trip. You seemed to have lost a lot of weight, didn't you? How many

pounds have you lost?

As a doctor, I am worried that you have become so thin. Young people may want to stay slim, but being too thin can lead to lots of health problems.

I wonder, is your diet balanced? Do you eat enough vegetables and meat? Here is my advice to you. First, you can use a chart to track your weight. Try to weigh yourself on a daily basis for at least two months. It would be even better for you to go to a dietitian who can help you calculate your ideal body weight.

Of course, there are reasons why one might lose weight. Are you eating less? Loss of appetite is a serious problem, which may lead to fatigue and a lack of energy. If that happens, you won't be able to work well. Go see a doctor if you need to. Your health is more important than your degree.

Yours truly,
Aunt Dora

64. Which of the following statements is true?
(A) Dora is Susan's doctor.
(B) Susan is so anxious about her weight that she asks Dora for help.
(C) Dora advises Susan on how to calculate her ideal weight.
(D) Dora tells Susan to consult a professional for advice on her weight.

65. Which of the following gives the correct order of Dora's actions?
(A) noticing Susan's condition → attending Susan's graduation → writing a letter to Susan
(B) attending Susan's graduation → writing a letter to Susan → noticing Susan's condition
(C) attending Susan's graduation → noticing Susan's condition → writing a letter to Susan
(D) writing a letter to Susan → attending Susan's graduation → noticing Susan's condition
